DETAILED ACTION

The active claims are 1-33 of which claims 1, 14, 16 and 31-33 are independent claims.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 31-32 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims are directed to computer and computer signals which are not one of statutory subject matters and therefore non-statutory.

Applicants are requested to delete the reference to carrier wave in the first paragraph on page 20 in the event that Applicants submit claims directed to storage medium for storing program for implementing a process.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 33 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The last line of claim 33 is not understood.

Allowable claims

Claims 1-30 are allowed. Claim 33 will be given favorable consideration if the last line of claim 33 is deleted.
